Step 1: Video recording

The artistic self-presentation is an important part of your application. The video should be approx. 20 minutes long and reflect your artistic skills. The repertoire is freely selectable. (For composition: Composers can prepare a representative selection of their works instead of an artistic self-presentation. This can be written documents, sheet music or videos).

Step 2: Upload video

Please upload your video to a video platform (e.g. Dailymotion, Vimeo, YouTube, etc.). The video must be freely accessible (e.g. “unlisted” on YouTube).

(For composition: Depending on the type of documents, please upload them to a suitable platform where they are accessible via a link and without login).

Step 3: Account creation

Please register under the following link:
